

**Engineering Design Process** 

Test/ **Implement** 

Get consensus from class (Contracts, penalties, etc.) Implement plan. Evaluate and re-evaluate

Formulate Write up plan for

group to implement. Create a brief presentation to rest of class.

Mr. Bettis is scared shop

about letting us use the

Research

What are the things that scare him about letting us use the shop? How can we put his mind at ease?

**Brainstorm** 

...Possible solutions to help him feel better about allowing us to use the shop

Select the best solution. Make sure it solves the problem and can be done.
